

## THINK AND FEEL?

How can sensors  
detect forest fire

Will it damage the  
living organisms  
there

Health issues

Will it cost  
high

Helps to clean the  
forest floor

Fire removes low  
growing underbrush

Loss of  
vegetation

HEAR?

SEE?

Regular  
maintainance of  
equipments

Cause old trees to  
never come back

Land slides  
and  
other erosions

Keep away all  
flammable objects

Avoid burning of  
debris

## SAY AND DO?

### PAIN

Excess  
emission  
of CO2

Devastate  
the  
ecosystem

### GAIN

Kills  
disease  
that impact  
the biome

Maintains  
diversity  
levels
